Syensqo

Guar Hydroxypropyltrimonium Chloride. Jaguar® C-1000 by Syensqo acts as a conditioning agent. Used in skin cleansing applications, such as shower gels, bath products, syndet or combo bars. Possesses... [view more](#)

Jaguar® C-13-S

Syensqo

Guar Hydroxypropyltrimonium Chloride. Jaguar® C-13-S by Syensqo acts as a protective, repairing, film former, rheology/viscosity modifier, thickening, texturing, conditioning and moisturizing agent... [view more](#)

Jaguar® C-162

Syensqo

Hydroxypropyl Guar Hydroxypropyl Trimonium Chloride. Jaguar® C-162 by Syensqo acts as a substantive, repairing, thickening, conditioning agent. It provides an excellent skin feel and enhances foam... [view more](#)

Jaguar® C-17

Syensqo

Guar Hydroxypropyltrimonium Chloride. Jaguar® C-17 by Syensqo acts as a conditioning, thickening and deposition agent. It is highly charged cationic plant derived polymer. It provides excellent... [view more](#)

Jaguar® C13 SH

Syensqo

Guar Hydroxypropyltrimonium Chloride. Jaguar® C13 SH by Syensqo acts as a film former, viscosity modifier, thickening and conditioning agent. It is a high molecular weight cationic guar polymer. It... [view more](#)

Jaguar® C500

Syensqo

Guar Hydroxypropyltrimonium Chloride. Jaguar® C500 by Syensqo is a cationic guar derivative derived from the seeds of guar beans, a natural and renewable resource. It provides all the key benefits... [view more](#)

Jaguar® HP 105 SGI

Syensqo

Hydroxypropyl Guar. Jaguar® HP 105 SGI by Syensqo acts as a film former, rheology/viscosity modifier and thickening agent. It has high molecular weight and non-ionic properties. It provides softness to... [view more](#)

Jaguar® HP 120 COS

Syensqo

Hydroxypropyl Guar. Jaguar® HP 120 COS by Syensqo acts as a thickening agent, rheology/ viscosity modifier and film former. It provides an emollient effect to the skin and can be used as a general purpose... [view more](#)

Jaguar® HP 60

Syensqo

Hydroxypropyl Guar. Jaguar® HP 60 by Syensqo acts as a thickening agent, film former, rheology/viscosity modifier. It is compatible with electrolytes and polar solvents such as glycols and alcohols... [view more](#)

Jaguar® HP-105

Syensqo

Hydroxypropyl Guar. Jaguar® HP-105 by Syensqo is a non-ionic film former, rheology/viscosity modifier, conditioning, texturing and thickening agent. It is derived from plants and offers smooth feel... [view more](#)
